Professional Summary

Resourceful and driven Computer Science student at Midlands State University, specializing in Information Security (InfoSec), Enterprise Networking, and Database Administration. Combines robust systems architecture with verifiable hands-on achievements in network engineering, threat intelligence, and secure cloud environments. Proven leadership as Faculty and Class Representative, demonstrating independent problem-solving and reliability under pressure.

Work Experience

IT Technician & Support

February 2025 – November 2026

Midlands State University, Gweru · Student on Employment

- Delivered first-line helpdesk support: hardware, software, and network issue resolution across campus.
- Managed user account administration, password policies, DNS/DHCP configurations, and ticket resolution.
- Conducted remote diagnostics using AnyDesk, SSH, and enterprise TCP/IP networking tools.

Information Technology Support Specialist

October 2025 – Present

Rupise Hot Springs Estate, Chipinge · Hybrid

- Diagnosed and resolved a persistent 4-day critical network outage, replacing a contracted IT provider.
- Manage ongoing router configurations, firewall hardening, network infrastructure, and system reliability.

Education

BSc Honours Degree in Computer Science

2024 – 2028 (Expected)

Midlands State University, Gweru · Student ID: R247360N

Currently at Level 2.2 · Semester: August – November 2026. Relevant Modules: Web Development (HCSCI231), Computer Security (HCSCI232), Operating Systems (HCSCI131), System Analysis & Design (HCSCI233).

Technical Skills

Networking & Infrastructure

TCP/IP, IPS/IDS, OSI Model, DNS, DHCP, SSH, Starlink Installation & Bridging, Router Configuration, Firewall Hardening, Subnetting.

Database Administration & Backend

PostgreSQL, MySQL, SQLite, Schema Design, Python Django 6, FastAPI, Celery, Redis, Django Channels, Nginx Reverse Proxy.

Cybersecurity & Threat Intel

Vulnerability Assessment, Metasploit, BurpSuite, Wireshark, Splunk, GoPhish, CTI, Privilege Escalation, Port Scanning.

Operating Systems & Scripting

Ubuntu 22.04 LTS, Kali Linux, Parrot Security OS, Windows OS, Bash Scripting, Windows PowerShell, Git/GitHub.

Soft Skills

Organizational Leadership, Public Speaking, Cross-Functional Team Collaboration, Technical Problem-Solving Under Pressure, Academic Liaison & Stakeholder Management, Rapid System Diagnostics.

Projects

Chibuwe Technical High School — Management System

Django 6 · PostgreSQL · Celery

Full-featured School Information System digitizing enrollment, grading tracking, fee automation, payroll, and real-time Channels messaging.

Regional Lodging & Hotel Booking Platform (BookItNow)

FastAPI · Next.js · Flutter · Redis

Two-sided accommodation marketplace with ACID row-level locking (zero double-bookings) and regional Paynow/EcoCash payment integration.

Certifications

- Certified Offensive Security Explorer (COSE)** — CyberEd / Cyberus (March 2026 | ID: COSE-ZW-2619)
- Foundation Level Threat Intelligence Analyst** — arcX (June 2026)
- Deep Learning IndabaX Zimbabwe 2026** — Deep Learning IndabaX (June 2026 | ID: IZW-CERT-2026-RECALLMA)
- Introduction to Cybersecurity** — Cisco Networking Academy (April 2025) | **Cybersecurity for Business** (2026)
- Ethical Hacking 101 & Kali Linux** — Simplilearn | **Student SOC Foundations** — Microsoft

Notable Achievements

- Starlink Network Bridging:** Independently reconfigured Starlink bridging across two residential buildings in under 3 hours, solving what an external contractor left unresolved.

- **Cloud Server Deployment:** Provisioned a cloud server on Clouding.io end-to-end with Nginx, firewall hardening, and database integration.
- **Student Governance:** Elected Faculty Representative (Science & Technology) & Class Representative (BSc Computer Science).
