Professional Summary

Resourceful and driven Computer Science student at Midlands State University, combining broad technical expertise with proven leadership as both Faculty and Class Representative. Competent across IT support, web development, cybersecurity, and systems administration — with verifiable hands-on achievements in each domain. Demonstrates consistent ability to solve complex technical problems independently and deliver results under pressure. Seeking an internship to apply a diverse, practical skill set in a professional environment and contribute meaningfully from day one.

Work Experience

IT Technician & Support

February 2025 – November 2026

Midlands State University, Gweru · Student on Employment

- Provided first-line helpdesk support: hardware, software, and network issue resolution for staff and students.
- Managed user account administration, password policies, DNS/DHCP configurations, and ticket resolution.
- Delivered remote troubleshooting via AnyDesk; applied SSH and TCP/IP tools in a live enterprise environment.
- Performed system maintenance and software deployment across campus infrastructure.

Information Technology Support Specialist

October 2025 – Present

Rupise Hot Springs Estate, Chipinge · Hybrid

- Diagnosed and resolved a persistent four-day network outage (misconfiguration + cable faults), replacing a contracted IT provider who had failed to fix the issue.
- Manage ongoing router configuration, firewall management, network infrastructure, and hardware support.
- Appointed based on demonstrated technical initiative — transitioned from a general reporting role to IT specialist.

Faculty Representative – Science & Technology

August 2025 – Present

Midlands State University

- Elected faculty-level representative; liaison between student body and academic administration.
- Public speaking, organisational leadership, and stakeholder communication in a professional academic setting.

Class Representative – BSc Computer Science

August 2024 – Present

Midlands State University

- Coordinate academic affairs and student feedback at class level; support peer learning and course administration.

Education

BSc Honours Degree in Computer Science

2024 – 2028 (Expected)

Midlands State University, Gweru · Student ID: R247360N

Currently at Level 2.2 · Semester: August – November 2026

Technical Competencies

NETWORKING & IT SUPPORT

TCP/IP, IPS/IDS, OSI Model, DNS, DHCP, SSH, Network Troubleshooting, Helpdesk Support, Remote Troubleshooting (AnyDesk), Hardware & Software Support, User Account Administration, Ticket Resolution, Starlink Installation, Router Configuration, Firewall Configuration, Cisco Packet Tracer

WEB DEVELOPMENT

HTML5, CSS (Vanilla, Tailwind, Bootstrap), JavaScript, Python Flask, Python Django, WordPress, PostgreSQL, MySQL, SQLite, Git/GitHub, Nginx, Web Hosting, System Deployment

CYBERSECURITY

Vulnerability Assessment, Metasploit, BurpSuite (Web App Security), Wireshark, Splunk, GoPhish, Social Engineering (SET), Threat Assessment & Intelligence (CTI), Privilege Escalation, Primary Access Attacks, Port Scanning

OPERATING SYSTEMS & SCRIPTING

Ubuntu 22.04 LTS, Kali Linux, Parrot Security OS, Linux Mint, Windows OS, Bash Scripting, Windows PowerShell, Prompt Engineering, AI Ethics & Workflows (Microsoft AI Skills First)

Certifications & Training

Certified Offensive Security Explorer

CyberEd · March 2026 · ID: COSE-ZW-2619

Deep Learning IndabaX Zimbabwe 2026

Deep Learning IndabaX · June 2026 · ID: IZW-CERT-2026-RECALLMA

AI Ethics & Workflows

Microsoft AI Skills First

Foundation Level Threat Intelligence Analyst

arcX · June 2026

Introduction to Cybersecurity

Cisco Networking Academy · April 2025

Prompt Engineering

Microsoft AI Skills First

Notable Achievements

Starlink Network Bridging & Configuration

Independently reconfigured a Starlink installation incorrectly set up by a professional IT company, successfully bridging the Wi-Fi across two residential buildings in under three hours. Resolved in 72 hours what the original contractor left incomplete.

Cloud Server Deployment – E-Learning Platform

Independently provisioned a cloud server on Clouding.io and deployed a live e-learning platform end-to-end — covering SSH access, Nginx configuration, firewall hardening, and database integration.

Relevant Academic Modules

HCSCI231 – Web Development

HCSCI131 – Operating Systems

HCSCI232 – Computer Security

HCSCI233 – System Analysis & Design
